infinitee Communications Senior Brand Designer/ Copywriter
Atlanta, GA 30305
October 2018

OVERVIEW

It is an exciting time to join infinitee! We are expanding our creative team and are looking for a dynamic conceptual graphic designer to be a member of our growing agency. You will be required to combine deep thinking and a nimble approach to creative problem solving, leading the creation of content that moves people to make decisions in a meaningful and measurable way. You must create and inspire solutions for our clients that are distinctive and effective. We desire a true creative talent who will be able to partner with senior leadership to build and guide our agency toward transformational work. This is an incredible growth opportunity for the right candidate.

RESPONSIBILITIES

- Provide strategic, creative leadership, conceptual design, branding, copywriting and hands-on design work across a wide variety of digital, print and interactive projects including websites, collateral, digital platforms, etc.
- Interface with clients leading creative presentations and reviews
- Possess a deep understanding of strategy and possess the ability to execute multi-channel brand and consumer-focused content campaigns
- Manage design projects against deadlines and budgets
- Utilize analytical skills to assess trends, look at new data and keep up with the times
- Stay current with the latest trends in design, advertising and marketing
- Create cutting-edge work that provides out-of-the-box targeted solutions
- Brand development for all clients (including: traditional, digital, video, radio)
- Be the keeper of the infinitee brand

REQUIREMENTS

- 10+ years of experience in strategic and hands-on copywriting and design experience
- Prior marketing/advertising agency experience is preferred
- Bachelor's Degree in design, marketing, or a similar field preferred
- Experience managing creative teams
- Ability to work closely with the account team and executive teams to develop creative solutions that meet our clients' or internal needs
- Ability to work within tight and aggressive deadlines
- Fashion /Retail experience and a strong visual aesthetic for layout and design trends are a must
- Expert knowledge in brand development, and the creative process—as well as new platforms and technologies
- Understanding of the production process for initiatives of various sizes across multiple media platforms from print, video, web, mobile, experiential, social, etc.
- Possess a working understanding of the fundamentals of web, interaction, user-centered experience design, web standards, frameworks, and development (basic knowledge of HTML/ CSS/JavaScript is a plus)
- Proficient in Adobe Creative Suite: Photoshop, Illustrator, InDesign, After Effects/Premiere and Sketch
- Television and photography production experience
- Good communicator with excellent written, verbal, and interpersonal communication skills
- A mind and passion for innovation and knowledge
- Bright, articulate, self-starter who can take initiative and bring new ideas to the table
- Professional, efficient, organized, detail-oriented, have excellent follow-through and thrive in a fast-paced environment
- Ability to work independently and collaboratively and to successfully manage concurrent and competing projects
- Passion, Integrity and Energy

Please provide a compelling, cutting edge portfolio showcasing great conceptual design and writing ability along with distinctive work samples spanning digital, traditional, social and video. These items along with your resume are required at the time of submission. Examples of retail, residential, commercial and/or multifamily real estate, as well as product launches and new branding concepts are preferred when submitting your work.
